

Tropical North Queensland TAFE is the largest provider of vocational education and training programs for schools in our region, and works collaboratively with secondary schools to develop a broad range of programs suitable for years 10, 11 and 12 students at both government and non-government high schools.

Our TAFESEC (TAFE secondary) programs help school students gain knowledge and skills relevant to industry and employment and are available within schools and at TAFE campuses across the region.

TAFESEC allows secondary school students to complete part or all of a nationally recognised vocational qualification while still studying towards their Queensland Certificate of Education (QCE).

Through TAFESEC, students attend TAFE on a specific day as nominated by their school to earn a Certificate level qualification in a chosen area.

*Last year, TAFESEC helped more than 1000 high school students in the far north earn a TAFE qualification.*
